

# 2008 PM DESIGN EXCELLENCE AWARDS COMPETITION WINNERS

Peter K. Johnson\*

## GRAND PRIZE WINNERS

The five parts selected as the Grand Prize winners are shown in Figure 1.

Figure 1. Grand Prize winners.

Winners of the 2008 PM Design Excellence Awards Competition, sponsored by the Metal Powder Industries Federation (MPIF), were announced at the PM2008 World Congress. Receiving Grand Prizes and Awards of Distinction, the winning parts are outstanding examples of powder metallurgy's (PM) precision, innovative design ability, superior performance, sustainable technology, and cost savings. High-density gear rolling, warm compaction, and metal injection molding (MIM) are some of the more innovative techniques and technologies used to produce the parts.

**The awards were presented at the PM2008 World Congress in Washington, D.C.**
